

# JULY 19-21

## PEORIA, ILLINOIS

# PEDIATRIC EXTREMITIES BY DR. MARK WERKING

Join us for an in-depth workshop for pediatric extremity adjusting. Dr. Werking will be presenting many x-ray examples of the most common pediatric extremity conditions and misalignments encountered today. Motion, static palpation and adjustment set ups will be demonstrated on bone models and patients for easy visualization. Expand your practice revenue centers and increase your new patient opportunities with specific pediatric extremity care!
